Description

The things you use most should be the easiest to reach.

The **Woomera Shallow Pocket** keeps documents, notebooks and everyday essentials close, visible and ready to grab — without adding depth or bulk to the desk setup.

Mounted to any compatible Woomera screen or accessory rail via the Turnstay quarter-turn system, it installs without tools and can be repositioned along the slot as workstation needs evolve. Slide it on, lock it down, move it when the brief changes.

The shallow format is intentional. Contents stay within sight and within reach, without the rummage. Because a pocket at desk level should not require excavation.

Made from 100% recyclable PET, with the same considered finish as the wider Woomera range, it is designed for high-density desking environments where every bit of surface matters.

Coordinates with the Woomera Deep Pocket and the full Work Tools accessory system.

Less rummaging. More reaching.

How to Specify

1. PET Colour

2. Qty

Composition

Density 0.25lb/ ft² 1.2kg/m²

Sustainability

func. PET panels are made from 100% recyclable materials.

- 60% post-consumer recycled PET bottles.
- 35% pre-consumer recycled content from PET chips
- 5% bio-based Polylactic Acid (PLA)
