## Description

**More depth, same system.**

The **Woomera Deep Pocket** gives bulkier items a proper home. Laptop sleeves, folders, tablets, chargers, cables and the other bits of personal chaos that usually end up in a pile on the desk.

Mounted to any compatible Woomera screen or accessory rail via the Turnstay quarter-turn system, it installs without tools and repositions easily as layouts shift. Insert, quarter turn, push, slide to lock. Done.

The increased depth provides real containment without the commitment of fixed storage, keeping more off the desk while staying within easy reach.

Pair it with the Woomera Shallow Pocket for a tiered approach to workstation organisation that covers everything from notebooks to the slightly bulkier stuff.

Made from 100% recyclable PET, with the same considered finish as the wider Woomera range.

**More room for the things that refuse to be small.**
