Description

The monitor at the wrong height is a slow tax on posture and focus.

The **Woomera Monitor Riser** lifts your screen to a more comfortable viewing height while creating useful space underneath for a laptop, keyboard, or the things that need to be close but not in the way.

The considered space beneath the riser turns otherwise dead space into useful storage, helping keep the desk organised without adding another piece of clutter.

Made from 100% recyclable PET, with the same considered material and finish as the wider Woomera range, it feels like part of the workstation rather than an ergonomic add-on that wandered in.

Structurally, the bevel and edge cut joinery gives it the rigidity to hold a monitor without flex.

Better height. Better use of space. Same Woomera thinking.
