Description

Cables don't disappear. They just get messy.

The **Woomera Cable Management Tray** gives power cables, data leads and charging cables a dedicated home beneath the desk, keeping the workspace clear from surface to floor.

Designed for straightforward installation without specialist tools or permanent fixing, it keeps the essential mess contained and out of sight.

Made from PET, with the same considered material language as the wider Work Tools range, it has no sharp edges or exposed fixings. Just a clean, practical solution to the problem every desk has.

Because if the cables are a mess, the whole fitout feels unresolved. The Woomera Cable Management Tray is the final piece of a desk that has its act together.
