Description

Goes where you go.

The **Woomera Toolbox** is a portable personal hub designed for hot-desking and activity-based work. Compact, durable and easy to carry, it keeps your everyday essentials together as you move from one workspace to the next.

Designed to integrate neatly with the Woomera Valet, it brings personal storage into the workstation without looking like something you packed for a road trip.

The construction logic and material finish match the wider Woomera system, so it reads as part of a considered range on the desk, in transit or tucked away.

Made from 100% recyclable PET, it keeps things personal and portable without ever looking informal.

Your stuff. Your system. Wherever you land.

How to Specify

1. PET Colour

2. Qty

Composition

Density 0.25 lb/ft² 1.2kg/m²

Sustainability

func. PET panels are made from 100% recyclable materials.

- 60% post-consumer recycled PET bottles.
