woomera turnstay

The little turn that makes the whole system work. Woomera Turnstay lets accessories lock into screens and rails without tools, then move as the workstation changes. Turn to lock. Turn to release.

✓ **Easy Clean** ✓ **Easy Install**

Description

The little turn that makes the whole system work.

The **Woomera Turnstay** is the clever bit behind the clever bits. A simple mechanical connector that lets cups, pockets, holders and panels lock into any compatible screen or accessory rail exactly where they're needed.

Turn to lock. Turn to release. No tools. No permanent fixing. No commitment to where you put something yesterday.

As workstations change, accessories can be repositioned along the rail to suit the layout, the workflow or simply the way the desk is being used today. It is a small piece of engineering that turns a collection of individual accessories into a genuinely configurable system.

Included with compatible Woomera accessory configurations, Turnstay is what makes the whole range click — quite literally.

Turn it. Lock it. Move it when you need to.

How to Specify

1. Qty

Dimensions

1.5" (37mm) d x 1.2" (31mm)

Weight

Maximum weight rating: 15lbs / 6.8kg

Assembly & Delivery	Ships Ready to install.
Care Instructions	Dab PET. with a damp clean cloth and mild solution of liquid detergent and warm water. Repeat using only clean water, then pat dry with a lint free cloth. For difficult stains, use a solution of household bleach (10% bleach / 90% water). To remove the bleach, repeat using a clean, water dampened cloth, then pat dry. Always test in an inconspicuous area first and if you don't see the expected results, contact us.
Warranty	5-year warranty. Visit **baresque.com.au/warranty** for complete details.
