Description

The bit that keeps the drawer where it belongs.

The **Woomera Drawer Housing** is the robust under-desk framework behind both the Deep and Shallow Drawer configurations, giving everyday storage a solid foundation without adding visual fuss.

Made from mild steel with a premium Gunmetal powdercoat, it brings durability and a refined industrial finish beneath the work surface. Choose the drawer depth to suit the brief — from everyday essentials to the slightly bulkier things that need a proper home.

An integrated drawer stopper keeps things secure during everyday use, preventing the drawer from being pulled free unintentionally. Need to remove it? The stopper releases manually when you actually mean to.

Designed to integrate seamlessly with the wider Woomera Work Tools ecosystem, the housing keeps the storage solution adaptable, durable and quietly resolved.

Strong where it needs to be. Quiet where it can be.
