Description

For the bulkier things that accumulate over a week.

The **Woomera Deep Drawer** brings the same considered, desk-mounted construction as the Shallow Drawer, with more depth for the things that need a little more room. Headsets, charger kits, notebooks, larger stationery and personal effects — all the things that end up in a pile when there is nowhere better to put them.

Integrated front and rear stops keep the drawer secure, while the internal PET sling keeps contents stable and in place. Because opening a drawer should not unleash a small avalanche.

Built from 100% recyclable PET, with bevel and edge-cut construction that holds its form while keeping the exterior clean and unfussy.

More depth. More room. Less desk chaos.
